

EVERTEC LAUNCHES ATH® MÓVIL BUSINESS

The new app allows small merchants to accept payments from more than 750,000 ATH Móvil current users.

San Juan, Puerto Rico – June 13, 2017 – ATH® and Evertec, a leading electronic transaction processing company in the Caribbean and Latin America, announced today ATH® Móvil Business launch. Through this service, small businesses will be able to receive electronic payments in an easy and secure way in real time from any ATH Móvil user.

The service is available for iOS and Android devices and offer advantages such as: designation of a unique name, known as pATH, access to a dashboard in which received payments can be seen, a summary of daily sales, reimbursements of any payment received and generation of reports with transactions data from selected dates, among others. Businesses will have the opportunity to receive instant payments from more than 750,000 ATH Móvil registered users from more than 60 financial institutions.

“ATH® Móvil Business offers an additional alternative to receive electronic payments. Now, with the use of this service, small businesses and their clients will be at the forefront of the latest technologies and enjoy its benefits. Many businesses started to enjoy ATH® Móvil Business benefits during the pilot phase and we already registered 40 establishments”, indicated Sylvette Ramos, ATH® Network Senior Vice-president.

The service includes a free app for business and it will have a charge per transaction that will be deducted from each received payment. However, Gustavo Díaz, ATH Product Manager, clarified that ATH Móvil P2P transfers continue to be free, as the payments for ATH Móvil Business participant merchants.

Díaz added that “payments for business are as simple as making a transfer. People just have to update the app that they already have, choose the pATH of the participant merchant, enter the payment amount and send the payment.”

Businesses interested in using the ATH Móvil Business service can download the free app for cell phones and other devices with iOS & Android through the App Store and Google Play Store. To participate, merchants should be clients of one of the ATH Network affiliated financial institutions participating of this service and have an ATH debit card.
